## MEMBERS INCLUDE

# DISCOVERING INNOVATION SINCE 2007

**In 2001 a few cutting edge telcos, committed to partnering with startups and external innovation, built what would become the Telecom Council of Silicon Valley to help the industry discover new technologies.**

ComTech Forum members discover trends, technologies, and new companies across the communications industry through regular innovation-centric meetings. Since 2007, members have been personally introduced to over 2000 executives from 750 communication companies including 60 carriers and 500 qualified startups covering infrastructure, software, cloud, wireless, services, AI, VR, IoT—and everything in between.

ComTech Forum meetings are short-format sessions focused on introductions, demos, pre-published attendee list and facilitated networking. 80% of companies introduced to the ComTech Forum report follow up, proving our Members’ commitment to innovation through partnership.

## GET INVOLVED

### JOIN

Annual Membership includes regular meetings, member library, introductions, early access to startups, and a global network of innovation executives focused on the future of connectivity.

### SPEAK

From keynotes and panels to startup pitches and product demos, our meetings are full of companies talking about ideas and innovation. Apply to speak online.

### DEMO

Demo tables are available at most meetings to startups and established vendors alike—as long as they are showing innovation. Reserve your table when you register to attend a meeting.

### SPONSOR

Occasionally meetings are open to speaking sponsorship. Meeting sponsors reach over 20K subscribers and meet a room full of potential partners in person.
